

NORTHERN EUROPEAN NETWORK FOR WOOD SCIENCE & ENGINEERING (WSE)

<http://www.up.poznan.pl/wse>

11th Annual Meeting 14-15 September 2015 Poznan, Poland

WSE National Coordinators – Thomas Mark Venas (Denmark); Pille Meier (Estonia); Marketta Sipi (Finland); Bruno Andersons (Latvia); Antanas Baltrusaitis (Lithuania); Christian Brischke (Northern Germany); Erik Larnøy (Norway); Peter Wilson (Scotland); Magnus Walinder (Sweden); Magdalena Broda (Poland).

POZANAN

A cosy and also a vibrant city on the Warta river in west-central Poland, with a population reaching 550 000 people, Poznan is an academic, scientific and cultural centre. 5 universities train about 130 thousand students. The city is also an important centre for an industry, trade, logistics and tourism. Being the home of The Poznan International Fair - the largest and the oldest exhibition in Poland it is also one of the most „green cities” in Europe - the green areas cover more than 26% of all Poznan. The biggest tourist attractions are the historic buildings and churches of the Old Town and the Cathedral Island (where the symbolic tomb of the first Polish ruler Mieszko I and the first king of Poland Boleslaw the Brave can be seen) as well as the botanical garden, Palm House and the Zoo (117ha). The most famous cultural event in the city is the Malta Festival.

INVITATION TO ATTEND

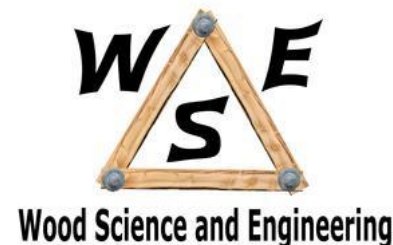

Established in 2004, the Northern European Network for Wood Science & Engineering currently involves 11 partner countries. Beginning in Honne (N) in 2005, successful annual meetings have subsequently been held in Stockholm (SE), Helsinki (FI), Riga (LV), Copenhagen (DK), Tallin (EST), Oslo (N), Kaunas (LIT), Hannover (DE) & most recently Edinburgh. During this period, the WSE platform has matured into an invaluable forum for researchers in all aspects of wood science and engineering to meet and share knowledge & the organizers now look forward to welcoming you to Poland, Poznan, for an important anniversary event the 11th annual meeting of WSE

LOCAL ORGANISER

Faculty of Wood Technology
Poznan University of Life Sciences
Wojska Polskiego 28 street
60-631 Poznan

ORGANISER

Wood Science and Engineering

CONFERENCE VENUE

Poznan University of Life Sciences
BIOCENTRUM
Dojazd 11 street
60-631 Poznan

Poznań University of Life Sciences

WSE provides an invaluable forum for researchers in all aspects of wood science & engineering to meet & share knowledge

WSE 11: 14-15 September 2015 , Poznan, Poland

<http://www.up.poznan.pl/wse>

CONFERENCE SCOPE

The 11th annual WSE Conference will address the following themes:

- Wood physics and Mechanics
- Engineered wood products and composites
- Wood protection and modification
- Applications of wood based materials
- Wood engineering

A special session theme:

WOOD – the sustainable future

REGISTRATION

Please register via the link above or complete the registration form available on the WSE website (details below) & forward it to the conference secretariat by email no later than Friday 19 June 2014.

No conference fees will be charged to participants from WSE member countries.

IMPORTANT DATES

17-05-2015 - Deadline for submission of abstracts

12-06-2015 - Deadline for registration

19-06-2015 - Deadline for submission of full papers

WSE encourages scientists and engineers, especially early stage researchers (students and PhD students) to submit papers that address any of the conference themes. Abstracts of papers (maximum 500 words) should be sent to the conference secretariat at the following email address: **2015WSE@gmail.com**. As an alternative to oral presentations, there will also be space at the conference venue for posters to be exhibited. Please indicate whether you would like to give an oral presentation and/or display a poster. Templates for full papers and well as poster abstracts are available from the WSE website - <http://nordicforestresearch.org/sns-research/networks/wse/>
