### **BIOECONOMY: Full speed ahead**

The Nordics lead the development of the bioeconomy – and will continue doing so! You can get to know why and how. This Wednesday was a promising day for the Nordic sustainable future!

[What happened last Wednesday?](#)

### **SNS PERSPECTIVE: The Nordics has the potential for bioeconomy**

Liisa Saarenmaa, SNS board: "Out of the box thinking is needed to envision a more sustainable and holistic use of agriculture, forestry and fishery resources and industrial symbiosis."

### **DIGITALIZATION: Policy brief from the SNS/NKJ seminar**

In April SNS and our sister organisation NKJ arranged a seminar about digitalization in our sectors forestry, agriculture and food. The aim was to come up with a good basis for decisions in the Nordic Council of Ministers. And we did! [Read about the seminar here.](#)

[Here it is!](#)

### **OPEN CALL: Research projects 2019–2021**

SNS strives to enhance benefits for the Nordic region and contribute to the development of a sustainable society. For 2019-2021, SNS wishes to support research projects exploring ways to manage forests without destroying nature and extract resources sustainably from them.
