### **This is your guide to networking in 2020!**

This newsletter gives you all the information you need to apply for our funding of annual networks. The call is open until June 1st. Here you can read about previously funded networks as examples of what kind of activities we have supported in the past. You will also get information on how to apply and how to form a network that reaches our standards. Good luck! We are looking forward to receiving your application.

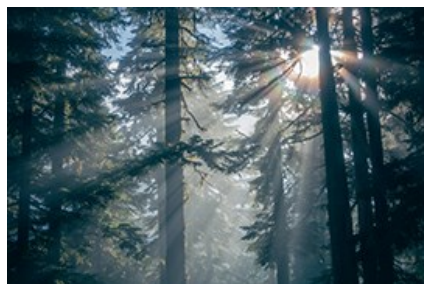

And please help the forest researchers find ashes for the future! Read more in the emergency call below!

[Information is also available on SNS website](#)

### **What networks got funded in 2019?**

SNS creates platforms for Nordic researchers to meet and develop their ideas together. In the latest edition of News & Views you can read about our seven annual networks with activities in 2019 – and a lot more!

### **Emergency call for the ash: help us find healthy trees!**

European ash is a critically endangered species throughout Europe due to the fungi that causes ash dieback. Researchers now want to save it by using more resistant genotypes in tree breeding, so they need help finding the right trees! Report the healthy ashes you find in a stand surrounded by disease!

[Yes, I want to help preserving the ashes!](#)

### **60 years of networking in forest economics**

The Nordic cooperation in forest economics has been going on for 60 years and the field has a lot to offer, whether it comes to use of wood for building materials, recreational values, sound forest

### **Nordic Network met their European siblings**

On the 100 jubilee occasion of Wageningen University and Research, the Nordic Network in Forest Policy Science met its central European sibling network. Coordinator is Vilis Brukas, vilis.brukas@slu.se.

### **By-products from the industry turns into gold**

New products made from by-products from the Nordic forestry should increase Northern European value creation. Coordinator for the network striving to reach that goal is Erik Larnøy,

management or in the role in  
protecting biodiversity.  
Coordinator is Bo Jellesmark  
Thorsen, bjt@ifro.ku.dk
