A new year with forest activities coming up - but first: Merry Christmas!

The year 2020 will bring a lot of exciting events from an SNS point of view. We will establish a platform for collaboration to reduce the risk for devastating forest fires by creating a network for rescue services, civil defense and forest owners in all Nordic countries – find the background information [here](#). We will continue working with the digitalization project, [Nordic Testbed Network](#) – supporting digital transformation in the Nordic bioeconomy.

We also have plans for improving the gender equality in the Nordic forest sector and much more - keep your eyes open for new calls!

Happy Holidays!
