SNS

Nordic Forest Research

ACTIVITIES PROMOTED BY SNS:

We have different funding alternatives for research networks, from annual networks to large scale networks running up to five years.

Network outputs should be useful for the Nordic community and should include knowledge exchange across national borders through arranging workshops, seminars, scientific meetings, open conferences or joint research. Networks could also write large-scale research funding applications, design policy recommendations based on research findings, produce peer-reviewed scientific papers and create or maintain databases or websites.

Visit our website (nordicforestresearch.org) for more information!

STRATEGIC PROJECTS:

The SNS secretariat runs several projects to reach the strategic goals of the Nordic Council of Ministers and our strategic plan. Use the QR code below for a closer look!

Strategic
projects

SNS MEMBERS:

-  • Denmark
-  • Finland
-  • Iceland
-  • Norway
-  • Sweden

Observers:

-  • Åland islands
-  • Faroe islands
-  • Greenland

ABOUT SNS:

Nordic Forest Research (SNS) is a Nordic cooperating body under the Nordic Council of Ministers. We strive to enhance benefits for the Nordic region and contribute to a green, competitive and equal society in the Nordic region.

MISSION: to promote research for sustainable forestry

- Facilitate and create synergies through Nordic research cooperation
- Advise the Nordic Council of Ministers
- Promote international contacts
- Communicate research results
