

# STUDENT REPRESENTATIVES NEEDED

TO A NORDIC NETWORK INVESTIGATING THE INTERSECTION BETWEEN FOREST, AGRICULTURE, DIGITALISATION AND EQUALITY

## APPLY TODAY!

*Nordic Forest Research (SNS) and the Nordic Joint Committee for Agricultural and Food Research (NKJ) are two Nordic cooperating bodies under the Nordic Council of Ministers. We strive to enhance benefits for the Nordic region and contribute to a green, competitive and equal society in the Nordic region.*

*Recently, our new project called BioEquality started and we are now looking for student representatives to the reference group from Denmark, Iceland, Sweden, Norway, Finland and the Åland Islands.*

*Are you the one?*

# THE DETAILS ABOUT THE ASSIGNMENT AND PROJECT

## We offer you:

- **New contacts** from a Nordic network within Forest, Agriculture and Food Research, equality and digitalisation.
- **You will be part of our project reference group**, together with 11 other Nordic student representatives from universities in Iceland, Norway, Sweden, Denmark, Finland and the Åland Islands. The reference group also consists of project partners from Nordic Forest Research (SE), Nordic Joint Committee for Agricultural and Food Research (SE), Skógarkonur (IS), University of Eastern Finland (FI), The Research Council of Norway (NO), Ministry of Agriculture and Food (NO), Ministry of Agriculture and Forestry (FI), The Federation of Swedish Farmers (SE), Ålands hushållnings-sällskap (AX), Ålands skogsvårdsförening (AX) and Copenhagen University (DK)
- **You are able to influence the development** of gender equality within the bioeconomy in the Nordic countries

## The assignment:

- **Participate** in the 9 online reference group meetings, including the upcoming meeting scheduled for October 12, 12.00-14.00 CET.
- **You will represent** your country in the reference group for the BioEquality project until December 2021.
- **Give comments to develop the project in a positive way** – bring input and ideas, give comments on planned activities and participate in discussions regarding the results.

## The BioEquality project:

The project will investigate how the digital transformation affects gender equality among young people in the Nordic bioeconomy and how digital development in the forestry and agricultural sectors can promote gender equality. The project is expected to provide a deeper understanding how the gender equality perspective can be integrated among both academia and business. The project will also publish a method manual for a more equal everyday life for the bioeconomy's future employees.

## Apply:

The selection process for the student representatives are ongoing. If you are interested do not hesitate to apply. We are look for two representatives from each Nordic country and two from the autonomous areas of the Åland Islands, totally twelve positions.

**Please fill in the attached form to apply:** <https://forms.gle/nPUkdE8Z8R9uB3Uc7>
