OPEN CALL for scholarships in forest regeneration

Forest seed or plant production, regeneration methods and tree breeding - are you a student or an employee interested in any of these topics? Apply for our scholarship! The call is open from 15 December to 15 February. Your work should be beneficial from a Nordic point of view. Get more information and apply for the scholarship [here](#).

Click the video to the right to see Anna Mariager, beneficiary 2020! The scholarship made it possible for her to go to Iceland for a project focusing on forest regeneration in pasture/non-pasture areas.

We will conquer wildfires together

We have opened new paths for the future. Nordic cooperation is important in times of climate change when the risk for forest and vegetation fires increases. Fires don't stop at the borders! Our meeting in the network "Nordiska nätverket för skogs- och vegetationsbrand" pointed out several possible areas for further cooperation.

One year of cooperation for an even more sustainable Nordic forest sector

We are proud over all the hard work that our networks put down in their activities. This year has been especially challenging due to the Corona pandemic. Click on the link to see a few pieces of what our network "Nordic Growth and Yield Network" have accomplished.

Soil as a carbon sink – more seminars to come!

Our seminar on soil as a carbon sink on November 26th met great interest. The seminar provided an overview of the state of Nordic knowledge on soil as a carbon sink. The conditions for Nordic cooperation within the area is good due to the countries' similar soil types, climate and policies.

We will arrange three more seminars during spring 2021 – follow us on [Facebook](#), [LinkedIn](#) and [Twitter](#) and you won't miss out!

[See the presentations from the first in the series of seminars](#)

Join the work towards a gender equal, digitalised forest sector

Are you a student at bachelor, master or PhD level and interested in gender equality, the bioeconomy and/or digitalisation?

We need you and your thoughts and experiences!

Join us and change the bioeconomy for the better

- become a student representative in our new

BioEquality project and join the work for a

sustainable forest sector!

Interested? Contact mimmi.blomquist@slu.se
