Method handbook: SNS works for a gender equal digital bioeconomy

The method handbook is finished! SNS and **NKJ** have worked together to gather concrete tools to change the Nordic bioeconomy to a more gender equal sector.

Welcome to participate in the launching of the handbook, January 28 at 10.00 AM. Click below for Zoom link.

Open call: SCHOLARSHIP

Is there a smaller project you dream about? A study trip you would really benefit from? Or some costs in relation to you thesis? Apply for a scholarship!

Every year, a number of beneficiaries are granted with up to 20 000 NOK to carry out a project they have a passion for. The topic is forest genetic resources, supply of seeds, plants and methods for regeneration.

It's possible to outsmart the climate and prevent forest fires in the future

Forest management is a key component in fire prevention, something that will be much needed in a changing climate. Suitable management practices can promote stand diversity, fuel discontinuity, and easy access to vulnerable sites, factors mitigating the risk of uncontrollable fire.

In this report you find steps toward a more fire resistant forestry in the Nordic region.
