Deadline for application: August 31, 2022

Nordic forests are, due to climate change, more exposed and vulnerable to damages such as fires, floods, pests and pathogens. Collaboration between nations is a vital tool to learn how to manage the risks at hand.

Gather your colleagues and apply for network funding on the issue.

We also invite networks that relate to the general focus areas of the SNS strategy:

- Forest resources as a base for value creation and rural development
- Climate change adaptation and mitigation
- Safeguarding of forest biodiversity

[APPLY August 31 at the latest!](#)

Anna will receive your applications

SNS secretary Anna Meisner Jensen is the one that will see your application first of all, after the submission of your application. She prepares all applications for the board which makes the decision about who will have their application approved.

Best practice examples for efficient cooperation in forest fire fighting

In a changing climate we have to expect an increase in forest fires, and we need to find ways to manage that to diminish the negative effects. The Nordic network for forest and vegetation fires gives best practice examples.
