## Welcome to join the celebration of the anniversary Nov 18

Most welcome to join the celebration of SNS's 50th anniversary! We will meet November 18 from 9.00 in Alnarp (SLU), close to Malmö, Sweden. In addition to some good food, discussions and networking, there will be a number of interesting speakers (Markku Rummukainen, Rane Willerslev, Liisa Saarenmaa – [read more about them](#)) and other happenings during the day. Follow us in our social channels to know more: [Facebook](#), [LinkedIn](#) and [Twitter](#).

[Registration \(at the latest Nov 6th\)](#)

## Biodiversity focus of the first workshop of INFOBIOM network

Biodiversity is notoriously difficult to map and monitor. The INFOBIOM network will address the indicators used in assessment of habitat quality and hence the preservation of biodiversity in the first workshop arranged by the network. Sign up October 20 at the latest!

## Nordic conference on reindeer husbandry November 9-10

Nordic Agri Research (NKJ), our sister organisation, is planning The Nordic Conference on reindeer husbandry 9-10 November 2022. The conference will be held at NIBIO Svanhovd, Pasvik, Norway. Join to discuss:

- challenges to reindeer husbandry, in particular the impact of predators
- consequences of a changing climate

More information is available on the [NKJ website](#) and in any of the NKJ social channels: [Facebook](#), [Twitter](#), [LinkedIn](#).

### **CAR-ES networking for fruitful Nordic cooperation**

Professor Raija Laiho, LUKE, Finland, coordinator of the SNS funded network CAR-ES, talks about the benefits for researchers to meet and exchange in a network reaching over the Nordic national borders. The main aim of CAR-ES is to provide appropriate knowledge in order to make informed decisions about forest management with respect to its impact on major environmental services.

### **"Mold fungi development during the short-term wood-chips storage depending on the storage method"**

"The research have shown that from the point of view of mold fungi development, the most advantageous is to store the chips in a silo and the least favorable on the unpaved yard."

### **Apply for the SNS and NordGen Forest scholarship in December 2022**

From December 15th the call for activities within the range of the SNS and NordGen scholarship is open. The scholarships should contribute to common Nordic benefit by supporting education, continuing education and knowledge exchange for persons working or studying within forest seed or plant production, regeneration methods and tree breeding in the Nordic countries.
