- Youths and climate change mitigation
- Gender balance in Nordic forestry
- Broader forest topics

FUNDING OPPORTUNITY: SNS and ForBioeconomys joint call for networking activities

Cooperation gives synergies – that is the basis for the SNS and ForBioeconomys joint call. We work to strengthen forest research related to bioeconomy in the Nordic region by networking activities.

Are you interested in...

- forest resources as a base for value creation and rural development
- climate change adaptation and mitigation
- safeguarding of forest biodiversity
- youth's perspective on mitigating climate change
- a gender equal Nordic forest sector

Apply now for up to 200,000 SEK for arranging a conference, creating a data base or other kinds of knowledge exchange!

The application deadline is August 31, 2023 at 24:00 CEST.

Ungulates and climate change, how does it work?

The researcher network NEFUN investigates the connection between climate change and the large ungulates in the forest. Annika Felton (in the video) is the coordinator of the network, and she tells about what the Nordic contacts and the Nordic cooperation has meant for the development of the research, which new ideas arised and joint applications for larger funding the network has written.

Join the forest technology conference in Umeå

The SNS co-funded network Advancing silvicultural technology arranges a conference in August. The objectives of the conference are to present ongoing research and development in the Nordic-Baltic region on forest management systems and technology. It will also be an opportunity to discuss future research and development needs. Register before Aug 15th.

The Nordic forest sector in numbers – fresh report

The Nordic countries account for only 1.6% of the world's total forest area, but this is an important percentage. Sweden and Finland contribute 16% of global exports of sawnwood products and paper, and 14% of pulp exports.

Download the 53 pages report, containing statistics on resources, industry, trade, prices, environment and climate.

SNS wishes all our subscribers a wonderful summer

It is vacation time for many of us. The forest is in its most beautiful beeing and invites to hike, pick mushrooms and maybe visit an experimental site? The SNS secretariat is also working a little more quietly for a while, but will be back with full force in a few weeks!
